MEMORANDUM FOR: Deputy Director for Administration  
FROM: [REDACTED]  
Acting Director of Data Processing  
SUBJECT: ODP Report for Week Ending 8 October 1980

Support to OPPPM

PERSIGN (Integrated Personnel Management Information System) We met with Production Division on 1 October to turn over the Legislative Pay Increase processing. This processing will take place on or after 17 October. [REDACTED] STATINTL

FTE (Full-Time Equivalency) We have started the analysis task on the FTE project which is targeted for completion by October 1981. This project will change the method of reporting employee counts. Rather than counting the employees onboard, the system will count the man-years worked by all employees subject to the FTE ceiling count. [REDACTED] STATINTL

SAFE

[REDACTED] conducted a seminar for Consolidated SAFE Project Office personnel to describe the computer equipment they will be providing for SAFE. The seminar was held in the Ames Building on 2-3 October 1980. [REDACTED] also gave a presentation to Processing personnel [REDACTED] on 6 October. STATINTL  
STATINTL

[REDACTED] of the Office of Security joined the CSPO on a full time basis on 29 September 1980. [REDACTED] primary duty will concern security aspects of the SAFE System design. STATINTL

GAS Processing Sets Record

The GAS processing for fiscal year end and all daily processing for 1-3 October was completed this weekend. This is the first time in the application's history that the processing was up-to-date this early in October. This effort was successful due to the overtime spent on the part of Production Division personnel, OF personnel and the excellent cooperation we received from the Ruffing Center throughout the weekend.
